To Whom It May Concern:

Swiss Stake, GmbH ("Swiss Stake") engaged Trail of Bits, Inc. ("Trail of Bits"), a cybersecurity research & development firm, to conduct a security review of the Curve.fi smart contract.

Trail of Bits performed this assessment beginning on January 27th, 2020 for a total of one week with one engineer. The review was focused on arithmetic operations and the most common smart contract flaws. Trail of Bits reported seven issues and one code quality recommendation. None of the issues reported were critical.

A handwritten signature in black ink that reads "Dan Guido".

Sincerely,
Dan Guido
